Important Questions	Answers	Why this matters
What is the overall deductible?	\$6,450 Individual \$12,900 Family Does NOT apply to preventative care	You must pay all costs up to the deductible amount before this plan begins to pay for covered services you use. Check your Summary Plan Description to see when the deductible starts over (usually, but not always, January 1). See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.
Are there other deductibles for specific services?	No	You do not have to meet deductibles for specific services, but see the chart starting on page 2 for other costs for services this plan covers.
Is there an <u>out-of-pocket limit</u> on my expenses?	Yes \$6,450 Individual \$12,900 Family	The out-of-pocket limit is the most you could pay during a coverage period (usually one calendar year) for your share of the cost of covered services. This limit helps you plan for health care expenses. The plan will pay 100% for individuals on family coverage when they reach the individual out-of-pocket amount.
What is not included in the out-of-pocket limit?	Premiums, balance-billed charges, and health care this plan does not cover	Even though you pay these expenses, they do not count toward the out-of-pocket limit
Is there an over annual limit on what the plan pays?	No	The chart starting on page 2 describes limits on what the plan will pay for <i>specific</i> covered services, such as office visits.
Does this plan use a network of providers?	Yes	If you use an in-network doctor or other health care provider, this plan will pay some or all the costs of covered services. Be aware that your in-network doctor or hospital may use an out-of-network provider for some services. Plans use the term in-network, preferred, or participating for providers in their network. See the chart starting on page 2 for how this plan pays different kinds of providers.
Do I need a referral to see a specialist?	No	You can see any specialist you choose without permission from this plan.
Are there services this plan does not cover?	Yes	Some of the services this plan doesn't cover are listed on page 3. See your Summary Plan Description for additional information about excluded services.

- Copayments are fixed dollar amounts you pay for covered health care, usually when you receive the service.
- Coinsurance is your share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for an overnight hospital stay is \$1,000, your coinsurance payment of 20% will be \$200. This may change if you have not met your deductible.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the allowed amount is \$1,000, you may have to pay the \$500 difference. (This is called balance billing.)
- This plan may encourage you to use in-network providers by charging you lower deductibles, copayments, and coinsurance amounts.

Your rights to continue coverage:

If you lose coverage under the plan depending upon the circumstances, Federal and State laws may provide protections that allow you to keep health coverage. Any such rights may be limited in duration and will require you to pay a premium, which may be significantly higher than the premium you pay while covered under the plan. Other limitations on your rights to continue coverage may also apply.

For more information on your rights to continue coverage, contact the plan at 1-877-815-1017. You may also contact your state insurance department, the U.S. Department of Labor, Employee Benefits Security Administration at 1-866-444-3272 or www.dol.gov/ebsa, or the U.S. Department of Health and Human Services at 1-877-267-2323 x61565 or www.cciio.cms.gov.

Your grievance and appeals rights:

If you have a complaint or are dissatisfied with a denial of coverage for claims under your plan, you may be able to appeal or file a grievance. For questions about your rights, this notice, or assistance, you can contact: ARBenefits, P.O. Box 15610, Little Rock, AR 72231-5610. Phone: 1-877-815-1017. E-mail: ask.ebd@arkansas.gov.

Does this coverage provide minimum essential coverage?

The Affordable Care Act requires most people to have health care coverage that qualifies as “minimum essential coverage.” This plan or policy does provide minimum essential coverage.

Does this coverage meet the minimum standard value standard?

The Affordable Care Act establishes a minimum value standard of benefits of a health plan. The minimum value standard is 60% (actuarial value). This health coverage does meet the minimum value standard for the benefits it provides.

COVERAGE EXAMPLES:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Do not use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the coverage examples

What are some of the assumptions behind the Coverage Examples?

- Costs do not include premiums.
- Same care costs are based on national averages supplied by the U.S. Department of Health and Human Services and are not specific to a particular geographic area or health plan.
- The patient’s condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network providers. If the patient had received care from out-of-network providers, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how deductibles, copayments, and coinsurance can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment is not covered or payment is limited.

Does the Coverage Example predict my own care needs?

- ✗ No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor’s advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

- ✗ No. Coverage Examples are not cost estimators. You cannot use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your providers charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

- ✓ Yes. When you look at the Summary of Benefits and Coverage for other plans, you will find the same Coverage Examples. When you compare plans, check the “Patient Pays” box in each example. The smaller number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

- ✓ Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you will pay in out-of-pocket costs, such as copayments, deductibles, and coinsurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs), or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
