NASPO ValuePoint Partners!

Hertz has now made EVs available under your contract.

With the incorporation of Tesla Model 3s, Hertz now offers the largest electric vehicle rental fleet in North America. From cruising to a conference to venturing out on vacation, go wherever the road may lead in a fuel-free EV as a Hertz Partner. Let's go!

Program benefits include:

- Tesla Model 3s creating first scaled network of EV fleet in U.S.; fleet underpinned by an expansive nationwide charging network
- Hertz App and quick start guide to support travelers new to EVs; pre-rent engagement overviews Tesla features and functions
- Dedicated EV ERS Team and exclusive EV text support
- Support CO2 emission reduction targets or neutrality ambition; EVs more fuel-efficient than ICE equivalents
- Broad reach into 50+ U.S. major markets.
- NASPO ValuePoint Car Rental Agreement partners receive exclusive daily rates
- Preferred parking at charging locations e.g., hotels and company locations
- Seamless process pre-pickup, on rent and when returning.
- ACRIS Code JCAE

For more information about please contact Nadika Perera at Nadika.Perera@hertz.com or To learn more about Hertz' EV fleet, visit [hertz.com/ev](https://www.hertz.com/ev)

Hertz. Let's Go!
