

## **OSP EMERGENCY PROVISION STATEWIDE TIRE CONTRACT**

The Statewide contracts for Tires, Tubes and Related Services are mandatory contracts and all tires, tubes and related services must be purchased from a dealer authorized by one of the awarded manufacturers.

The Bridgestone and Goodyear contracts both include emergency roadside service pricing.

However, in cases of an emergency roadside need in a location where one an authorized dealer does not provide emergency roadside service, state agencies are authorized to purchase tires or emergency tire repair services from non-contract tire dealers.

Agencies may only make tire purchases and tire repair services from non-contract dealers that will restore the vehicle to a safe operating condition. No other purchases are permitted.
